

Chihyun An

ach0309@kaist.ac.kr / Github: <https://github.com/ChihyunAhn0309>

EDUCATION

KAIST, Mar. 2021 – Present (5th Grade)

Expected Graduation Date: August 2027

GPA: 3.89/4.3

Major GPA : 3.95/4.3

School Of Computing

Electrical Engineering (Double major)

Incheon Jinsan Science Highschool, Mar. 2019 ~ Feb. 2021.

RESEARCH INTERESTS

- Computer systems for AI
- GPU-efficient architecture
- GPU-optimized neural architecture
- LLM Serving System
- Reinforcement Learning & Deep Learning

RESEARCH EXPERIENCE

Continuous Learning at Edge Device

Individual Research

December 2025 ~

LLM serving system simulator

Individual Research

December 2025 ~ June 2026

Receiving rewards for a reinforcement learning agent with VLM

Individual Research

December 2024 ~ March 2025

Interaction between two floating objects

High School Research

March 2019 – December 2019

HONORS & AWARDS

Dean's List

Spring 2026

- Achieved (4.27/4.30) GPA while taking 16 credits hours.

Departmental Honors Scholarship

Spring 2026

- Within the top 4 of all students in the School of Computing.

SKILLS

Possible Programming Languages: C(main), Python, Scala

Language:

Korean(native)

English(intermediate)

- TOEIC 945 2024.6.16
- TOEIC 945 2026.5.31

TEACHING ASSISTANT

CS101 – Introduction to Programming

Spring 2026

CS101 – Introduction to Programming

Fall 2026

Military

Republic of Korea Army

March 2023 ~ September 2024

The 39th Army Division

Computer System related courses

2022 Autumn

Programming Structure for Electrical Engineering (EE.20009) – A0

2024 Autumn

System Programming (CS.20300) – A+

2025 Spring

Computer Organization (CS.30101) – A0

Operating Systems and Lab (CS.30300) – A0

2025 Autumn

Introduction to Computer Networks (CS.30401) – A0

2026 Spring

Graduate Computer Architecture (CS.50100) – A+

AI related courses

2024 Autumn

Machine Learning (CS.30706) – A0

2025 Spring

Introduction to Reinforcement Learning (CS.30707) – A0

2025 Autumn

Introduction to Deep Learning (CS.30701) – A0

2026 Spring

Introduction to Artificial Intelligence (CS.40700) – A+
